

Acunetix v13 Download Steps

Follow the following steps to download the latest version of Acunetix version 13 (Standard and Premium):

- Go to <https://www.acunetix.com/download/fullver13/>
- Enter the license key number and contact details

Please note: if a license key has been created prior to February 5, 2020, you will need to contact operations@acunetix.com and request to convert an unused POC key. Otherwise, you can create a new POC key.

What you need to know if your customers are still using Acunetix v12:

- Encourage them to upgrade to a new version by opening their Acunetix application
- Customers who will continue to use v12 will not get the latest product features and updates
- Customers who have upgraded to v13 cannot revert back to using v12
